The CCSF Library actively encourages questions on any subject. Our collection includes many resources on HIV/AIDS. We have books on living with HIV such as A Woman’s Guide to Living with HIV Infection and novels such as I’ll Cry Tomorrow. Some of our books look at the impact of HIV/AIDS on different communities: African American Women and HIV/AIDS: Critical Responses. We have articles with the same approach, one example is: “HIV and the Native Population.” Other resources offer information on the global effects of HIV/AIDS and statistics regarding the effects of the epidemic. Whatever questions you may have we can try to help you answer them.

Please come in and ask a reference librarian for help at any one of the six CCSF libraries.

You can pick up a bibliography with a list of many books, websites and articles on HIV/AIDS just across from this case, to the right of the long case, by the poster.

Photographer Roslyn Banish’s book Focus on Living: Portraits of Americans with HIV and AIDS is available from the CCSF Library. It includes the photographs here as well as other portraits and stories.

The San Francisco Public Library has a special service called “Friends for Life” which delivers books and other Public Library resources to those who are homebound because of a disease. You can reach Friends for Life at: 415-557-4557.
